DETAILED ACTION

Summary

On December 16, 2004, an Office Action was mailed to the Applicant rejecting claims 1-153. On March 18, 2005, the Applicant responded with arguments.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-153 are rejected under 35 U.S.C. 103(a) as being unpatentable over Neely (6,044,362) in view of Virgin (6,826,542).

Neely discloses the invention substantially as claimed, as set forth in the previous Office Action. However, Neely does not disclose a consolidated invoicer interface having an access point to each of at least two invoicers. Virgin teaches an electronic payment and invoicing system comprising a consolidated invoicer interface having an access point to each of at least two invoicers (col.2, lines 23-50 and col.12,

Art Unit: 3624

line 45 to col.13, line 10). It would have been obvious to one having ordinary skill in the art to incorporate a consolidated invoicer interface having an access point to each of at least two invoicers, as taught by Virgin into the device disclosed by Neely, to provide the users with a means to customize.

Response to Arguments

Applicant's arguments with respect to claims 1-153 have been considered but are moot in view of the new ground(s) of rejection.

Provisional Application Listed on PTO-892 form

If a copy of a provisional application listed on the bottom portion of the accompanying Notice of References Cited (PTO-892) form is not included with this Office action and the PTO-892 has been annotated to indicate that the copy was not readily available, it is because the copy could not be readily obtained when the Office action was mailed. Should applicant desire a copy of such a provisional application, applicant should promptly request the copy from the Office of Public Records (OPR) in accordance with 37 CFR 1.14(a)(1)(iv), paying the required fee under 37 CFR 1.19(b)(1). If a copy is ordered from OPR, the shortened statutory period for reply to this Office action will not be reset under MPEP § 710.06 unless applicant can demonstrate a substantial delay by the Office in fulfilling the order for the copy of the provisional application. Where the applicant has been notified on the PTO-892 that a copy of the provisional application is not readily available, the provision of MPEP § 707.05(a) that a copy of the cited reference will be automatically furnished without charge does not apply.
